

The image features three children in the foreground, their hands raised in a gesture of excitement or achievement. They are standing in front of a chalkboard that is densely covered with white chalk drawings and mathematical notations. The child on the left is a boy with glasses, wearing a red polo shirt and blue pants, with a blue backpack. The child in the middle is a girl with a pink shirt and a purple plaid jacket, wearing a green backpack. The child on the right is a girl with glasses, wearing a light blue plaid shirt over an orange top and light blue pants, with a blue backpack. The chalkboard background contains various diagrams, including a triangle with vertices labeled 'A' and 'O', a square with a diagonal, a circle with a lightning bolt, and several mathematical symbols like  $\frac{11}{R}$ ,  $x^2$ , and  $\theta$ . The overall scene conveys a sense of active learning and discovery.

# Institution Management Solution

Digitizing an Institution's operations to efficiently operate and excel in this era of Internet and Mobile provides numerous benefits to excel in academics as well as in management.

# SOLUTION HIGHLIGHTS

## Mobile First Approach

Internet

and Mobile has become an un-separated part of our lives. Learner Circle's Osmosis -Institute Management Suite combines Web and Mobile technologies to nourish and support Institution as whole. We have workflows for everyday school-related activities and routine to enhance the process of imparting knowledge which caters to Pupils, Teachers, Coordinators, Principal and Management. Our cutting edge Institution Management Suite is able to handle every responsibility and share the user-friendly guide to every type of users. The suite has made the routine Institution operation so easy and same time provides an elaborative Dashboard to the management to keep track of important performance indicators. They can update any kind of information in the system just by using their Smart Devices. Just Download the Mobile App and you are good to go!!

## Hosted on Safest and Fastest Cloud

Osmosis is hosted on one of the world's safest and fastest Cloud Infrastructure. Having or not an IT department is not an issue for any Institution for maintaining the system and database storage of the Institution's Operations, Academic and more. It preserves the privacy of the detailed data relating to your staff and students. The suite offers the capability to download and your data with proper backup mechanism. Its handy back-up tool supports you to add, update the entire Institution's data, student's information, staff information and other HR aspects, finance related information and much more. Backup tool allows you to take a backup of the important data on a daily/weekly/monthly/on-need basis.

## Right mix of personalization and security

Osmosis endows power to the Institution administration to revise their data any time they wish to. Our security and privacy policy are firm. Apart from the authorized user, System doesn't allow any other person to access the data through our suite. Only an authorized person has access to edit the Institution setup and academic curriculum. This security and personalization provides a great deal to Administration and Management. There is no way that sensitive data can be compromised at any point of time.

## Multi-Branch Operations Simplified

Osmosis provides great infrastructure to support your multi-branch Institution setup. You can setup from a Head Node to all Child Nodes (Branches). Its Multi-Branch design provides a great control and visibility to Head Node and Operational independence to Branches down the line. Head Node Administrator can define workflows; permission and approval flow for Branches in One-Time setup and can later manage it effortlessly. It supports both type of operations – Single Branch or Multi-Branch.

# Packages to suit your size and requirement

Osmosis comes in different packages for supporting various scales of operational requirement. We gladly offer free Basic package to any Non-Governmental Organizations in Academic area. Alpha Package provides support to 2 branches and Beta Package for 5 Branches. Further Packages can be customized if an Institution is bigger than our package offerings. All Packages are available on Software-as-a-Service model, where you have to pay one-time set-up charges and user licence. Osmosis provides you flexibility to plug-and-play.

## Enabling your workforce - Building your future

Osmosis provides training and re-training programs for its users. We provide the training until it reaches the perfection that required to learn as well as to run standard academic management. The privacy and security of the records is our priority. So we keep updating the security etiquette to ensure the clients of our trustworthy service. We also keep upgrading the design and the content of our software to uphold our benchmark. A continuous up-gradation process, a time to time follow-up, a rigorous training about the operational methods, makes our clients stay satisfied.

## 24x7, Support System

Alpha and Beta packages come with after-sale support; backed by SLA (Service Level Agreement) with complete customer satisfaction helps to boost our work efficiency until its best. These packages include comprehensible fast responses via Web/Mobile App/ Online Help Desk. There channels are approachable anytime whenever an issue arises. 24x7 technical support team is active to solve any technical issues. For SOPs (Standard Operating Procedures) and Quick-fixes, there is an online Chatbot integrated into the software that answers any queries instantly.

# We support all personas in your ecosystem

## Institution Administration

Osmosis helps Institutions to maintain the operational records by keeping a constant and convivial connection to the parents. The Suite provides to monitor the students and staff related activities. Sharing emails to the teachers and parents about section calendar and class-oriented information has proved to be very supportive of both of them. The Suite is able to send any required information on email as well by as SMS.

## Teachers and Coordinators

Teachers and coordinators need to complete several tasks to run and maintain the standard of the institution. Osmosis lightens up their workload to work more flexibly and efficiently without making errors and wasting time on printing a stack of papers. The Suite supports workflows to easily manage all the tasks including class schedules, individual subject notes, and attendance and assessment papers with grades as well as making monthly reports.

## Institution Management

Osmosis provides management an elaborative Dashboard to to keep track of important performance indicators. Management can update any kind of information in the system just by using their Smart Devices. Just Download the Mobile App and you are good to go!!

## Students

Besides helping Institution's administrative bodies and teachers, Osmosis is there for the students also. We have a separate module for students where they can get all the school-related information including class schedules, theory and practical sessions, previous chapter notes, exam schedules, library records for borrowing books. Each student uses this suite by logging with their individual login ID and password. By using the Smartphone they can access it and get all the required information. It keeps you updated with class timing with teacher allotments on a daily basis, in advance.

## Parents

Parents can also easily access Osmosis by using their ID and password. They can track all the information regarding their child. The information about the other students is kept secretly. They can monitor their child's growth by keeping the track of assessment results, behavioural improvements. Parents can know about the schedules of extracurricular activities, holiday notices, class timetables, assessment rosters, and emergency changes. Another most helpful amenity they can get the fees payment option with a valid pay-slip.
